Changes in the Tables

Consumer Price Indices

Algeria (Algiers).

A revised series of consumer price indices with original base July 1956-June 1957 = 100 has been introduced in this issue.

The revised index is based on a family living study undertaken around 1954 in Algiers. Prices are collected for 250 items ; percentage weights used are as follows :

Group	Percentage weights
Food	495
Beverages, tobacco	85
Rent, fuel and light, household equipment	140
Personal care and services	70
Transport	60
Clothing *(incl. household linen)*	95
Miscellaneous	55
Total	1,000

In the Supplement this index has been linked at July 1957 to the former series with original base 1949 = 100 and is published on the base 1953 = 100.

* * *

SYMBOLS AND TYPES EMPLOYED

. = inapplicable or figures not available.
— = nil or negligible.
... = not yet received.
* = provisional.
r = revised since previous issue.

A line——placed between two figures in a column indicates that the figures above and below it are not strictly comparable or that a new series begins below the line (see footnotes).

Figures in *italics* : index numbers based on another year than 1953.

The countries are arranged by continents in alphabetical order.

Persons cov. (thousands)	.	204 (1956)		.

The roman numerals and other abbreviations used in this table are explained on p. 17.

[1] 1937: excl. agricultural workers; Nov. 1951-55: excl. commercial workers; 1953-55: averages of Feb., Apr., June, Aug., Oct. and Dec. [2] 1937-55: statistics of type IV; beginning 1956: unemployment among members of unemployment insurance funds. [3] 1937: the statistics refer to persons insured under the Unemployment Insurance Acts; beginning 1950 they relate to all registered unemployed, and the percentages are based on the estimated total number of wage and salary earners aged 15 years and over insured under the National Insurance Scheme. [4] Wholly unemployed. [5] Persons temporarily laid off.

Maintenance and Repair of Motor Vehicles

A Practical Instruction Manual

A profusely illustrated manual, originally prepared in connection with a Technical Assistance project for the Asian region and now offered for sale to the public in response to demands from various countries.

Part I, which is for the information of drivers, describes in detail the parts of a motor vehicle (springs, shock absorbers, universal joints, exhaust pipes, steering, tyres, cooling system, battery, plugs) and gives simple instructions for their upkeep, explains, among other things, how the engine works, the action of the carburettor and petrol pump, why lubrication is necessary and how it is carried out in the engine, the operation of the ignition system, the use of the gauges fitted to the instrument panel and how to start the engine and correct starting and running faults, and gives advice on servicing the vehicle and on loading.

Part II, which is for the information of mechanics, gives detailed instructions for tuning up and for overhauling the engine, the petrol system, the brake system, the transmission, the steering assembly and the electrical services (checking, testing and repairing generators, regulators, starter motors and their circuits, focusing headlamps, reading wiring diagrams, tracing and locating faults in electrical services and wiring).

At the end of each section in both Parts I and II a series of questions is given by which progress can be assessed. Blank pages are also provided to enable additional information to be recorded.

Part III contains general information on dismantling, cleaning, inspection and assembling, conversion tables of the British, American and metric systems of weights and measures and a glossary of terms.

366 pages, including index **Price : $3 ; 18s.**

N.B. This volume does not form part of the regular series of I.L.O. publications covered by the inclusive subscription.

PUBLICATIONS OF THE INTERNATIONAL LABOUR OFFICE

Introduction to Work Study

This book describes as simply as possible the basic techniques of work study, giving examples of the applications of each. It is intended to serve as a textbook, and particularly for use in connection with technical assistance missions concerned with raising productivity. The techniques described represent systems which have been widely and successfully applied in many parts of the world for a number of years.

Part One. Productivity and Work Study.

Discusses the role of higher productivity in the raising of living standards, the causes of low productivity in an industrial undertaking and the techniques at the disposal of management to eliminate these causes, examines the human and physical environment in which work study is to be applied and stresses the importance of having good human relations and good working conditions throughout the undertaking before attempting to introduce work study.

Part Two. Method Study.

Deals with method study and devotes a chapter to each of its principal applications; by way of illustration an example of each of these is worked out and commented on. Many of these examples are drawn from the work of I.L.O. productivity missions and cover various industries and activities.

Part Three. Work Measurement.

Comprises six chapters on work measurement which include a discussion of the theory of rating and a basic time study fully worked out with explanatory notes. The method illustrated has been used successfully for over 30 years in many parts of the world and is being taught by most of the I.L.O. missions at the present time. One chapter is devoted to brief discussions of other techniques of work measurement including ratio-delay and predetermined motion times.

Part Four. Appendices.

Consists of nine appendices including a basic list of books on work study and management for further reading. Another appendix gives notes on the use of this book for teaching purposes, based on the experience of lecturers who used a limited provisional edition. Syllabuses for three types of work study course are given; there is an appendix containing definitions of the management terms used.

349 pages, including many diagrams, charts and tables. **Price : $3.50 ; 21s.**
